

BugHugger

Client to deal with great amount of bug for Launchpad

Didier Roche
didrocks@ubuntu.com

Bughugger

- Use case
 - Why directly deal with Launchpad?
 - Offline Client
 - 598,468 bugs on Launchpad
 - 330 bugs a day
 - 280 opened against Ubuntu

Bughugger

- Created by Rick Spencer, contributed by Brian Murray
- Quickly project
- Current release: 0.3

Bughugger

- Advantages:
 - All the advantages of Launchpad bug support
 - Offline Client
 - Support long query
 - Use Launchpad API
- Drawbacks:
 - Can be slow
 - Still in early development (help/patch!)

Bughugger

- Demo
 - Disclaimer:
 - Lot of latency of network
 - First registration already done

Bughugger

- Links
 - Available in universe starting from lucid (bughugger)
 - Project: <https://launchpad.net/bughugger>
 - Bug report: <https://bugs.launchpad.net/bughugger>
 - Code: lp:bughugger
